Please review this attachment or sharepoint page list and reply to me if you have disagreement with your seniority status (hire date or job change date) as soon as possible. I will need to finish compiling a list to send to the County to correct.

A significant victory in the EWS Time Off Class Action Grievance was reached last week as management reduced the time off deadline from 45 days to 30 days with the reminder that you may request time off up to 48 hours in advance of the time. Based in part on this movement the arbitration has been postponed. Please see the February newsletter for more.

EWS Time Off Policy Grievance Update - submitted by Aaron Gardner-Kocher

EWS staff saw important progress recently in our efforts to get the county to re-write the EWS time off policy. The county significantly reduced their unreasonable due date for time off requests, and added clarification that time off requests still can be made after the initial due date. Partly due to the county showing they are finally hearing our voices and making change, the union has agreed to postpone arbitration for the time being. This win for us came as a result of the efforts of hundreds of union members who have participated in filing and delivering grievances, and continued to speak out about how this issue affects us. It came also because we will not back down and will pursue this issue all the way to arbitration if it is not fully resolved. While the recent changes are a partial win for us, there are still many changes that need to be made in order for the policy to comply with our contract and basic fairness. We will keep pursuing this issue through all possible means including arbitration.

If you are unfairly denied time off, please save all the documentation you can and contact our Chief Stewards Remy Huerta-Stemper and Kenneth W. Garnier.
